

**FY 20-21**  
**ADOPTED BUDGET**  
**CITY OF DONALSONVILLE**  
**JULY 7, 2020**

To: Donalsonville City Council

From: Steve Hicks

Subject: Budget Message

Date: July 7, 2020

**REVENUES AND EXPENDITURES**

The proposed FY 20-21 City budget reflects a total for all activities of \$6,230,124. Overall, the budget is an increase of \$161,303. The General Fund budget is increased by \$255,043. The budget for all other funds combined is reduced by \$68,098.

A minor increase is projected in General Property Taxes, based on current collections. However, projections for Local Option Sales Taxes, Business Occupation Taxes, General Business Licenses, and Building Permits will be reduced by \$79,167 as the expected result of the economic impact of the COVID-19 crisis. The projections for lost revenues from sales and business-related activity are offset in FY 20-21 by additional projected revenues from Hurricane Michael operations in the amount \$187,787. The City has received \$419,905 from FEMA, NRCS, insurance proceeds and other sources related to Hurricane Michael and paid \$616,090 in related direct expenses to date. An additional \$128,453 is projected to be paid out for administrative expenses. Other revenues have been projected based upon current collection activity. The net effect of all General Fund operations is projected to increase the fund balance by \$76,477.

General Fund grant revenues impact the budget as follows and continually help offset other reductions in revenue:

LMIG Grant Funds for Street Projects	\$48,890
School Grants	40,000
Public Safety Grant	10,000
Total	\$98,890

Projected salaries are expected to decrease by \$54,586 for all departments adjusted for current staffing positions. New hires will be reviewed for need and economic conditions. There is no provision for merit increases at this time but may be considered later in the year as economic conditions dictate. Total related payroll taxes and benefits will increase by \$28,939 based primarily upon projected increases in insurance related costs.

2020-21 Budget	Total	2019-20 Budget	Total
Health Insurance	\$394,470	Health Insurance	\$374,117
FICA	125,506	FICA	125,161
Workers Comp	81,777	Workers Comp	78,025
Retirement	133,477	Retirement	128,988
Total	\$735,230	Total	\$706,291
		Change	\$ 28,939

Capital outlay expenditures include funds for a new fire training facility to replace the facilities destroyed during Hurricane Michael; replacement of the city-wide camera surveillance system, city hall/police department renovations; post office HVAC and building repairs; and a bucket truck for the

street department. These items were included in the previous budget or insurance funds were received in the previous year. The post office work was delayed until this year as per agreement with the USPS.

Funds have been allocated for technology upgrades to the city hall/police server which is critical due to the age of the equipment and required software support issues. Upgrades to the wireless access point are needed but not critical at this point and can be delayed if necessary.

Projected SPLOST V sources will provide for debt service payments with excess funds utilized to reimburse the General Fund for construction of the new fire station that was incurred in the amount of \$388,507. Debt service payments are allocated as follows:

-Three Notch Electric Interest Free Loan-New Fire Station.

Balance: \$210,000 Annual Payment: \$30,000

-Ameris Bank Equipment Finance Program-Vehicles & Equipment

Current Balance: \$490,041 Current Annual Payment: \$144,626

-USDA Police Vehicle Note-Police Cars

Current Balance: \$90,000 Current Annual Payment: \$34,153

TSPLOST collections began in October 2018 and have accumulated approximately \$445,000. Revenue for FY 20-21 is estimated at \$226,620 adjusted for economic conditions. Phase 1 of the TSPLOST projects was completed in FY 19-20 in the amount of \$453,169. LMIG funds were also utilized to complete the project. TSPLOST funds in the amount of \$262,596 will be available for FY 20-21 or allocated to future road projects as determined by the Council. TSPLOST funds will be collected over a five-year period.

In Water/Sewer operations, the water line improvements project is closed out. Debt service payments have been reduced by \$38,646. Allocations have been made to purchase new lift station pumps and an actuator for the Sewer operations. An increase from the Water/Sewer Fund to the General Fund of \$19,860 will offset reductions in transfers from the Gas Fund made available by NRCS funds from Hurricane Michael. The net effect is a budget reduction of \$31,059.

The Gas Fund budget includes an allocation of \$450,000 to construct a new gas line to service customers in the industrial park and loop the entire city system. When implemented, the lines will provide new service to APGG and Scott Farms generating net profit of \$115,000 or more per year based on current projected usage and rates.

A significant item that should be noted is that transfers have been made from the Gas Fund in the amount of \$229,426 to the General Fund. This is a reduction from the previous year of \$30,434 and are required in current General Fund activities. While these transfers are in line with the value of the services contributed to these areas by General Fund operations, these transfers were not built into the rate structure in the past. It will be crucial to address this issue by adjusting the rate structures to include the transfers or positioning the General Fund so that it does not rely heavily on these sources for future budgeting requirements.

The City budget incorporated the implementation of E-Donalsonville to provide quality lower-cost wireless broadband internet services to the citizens of Donalsonville and the surrounding area. Over the past year the project has been implemented and the system is operational. We are continuing efforts to expand the customer base with an application for license through the FCC. The City will have the opportunity to bid on the spectrum starting in July of this year. The City will also implement the Georgia Pacific project this year. This year's budget of \$177,319 reflects operational costs and new equipment

costs contingent upon acquisition of the spectrum licensing. The City will continue to utilize current utility billing operations and customer support to reduce overhead.

**FUND BALANCES & WORKING CAPITAL**

The net effect of the budget operations for FY 19-20 and FY 20-21 in regard to fund balances and working capital is shown below. Fund balances and working capital, excluding SPLOST and TSPLOST constitute almost 4 months/33% of operating funds for all operations. The General Fund reserve is at 3.2 months/26.5%. Governmental recommended minimum standards are 2 months/15-20%.
