INDEPENDENT AUDITOR'S REPORT

To the City Council  
City of Donalsonville, Georgia

**Report on the Audit of the Financial Statements**

**Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Donalsonville, Georgia as of and for the year ended May 31, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Donalsonville, Georgia, as of May 31, 2022, and the respective changes in financial position and, where applicable, cash flows and the budgetary comparison for the general fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Donalsonville, Georgia, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Donalsonville, Georgia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and retirement system information on pages 7–11 and 46–48 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund nonmajor financial statements (pages 48-54) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund nonmajor financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory section (pages 1-2) but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required By Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued our report dated November 25, 2022, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

## Management's Discussion and Analysis

As management of the City of Donalsonville, Georgia, we offer readers of the City of Donalsonville's financial statements this narrative overview and analysis of the financial activities of the City of Donalsonville for the fiscal year ended May 31, 2022.

### Financial Highlights

- The assets of the City of Donalsonville exceeded its liabilities at the close of the most recent fiscal year by \$15,007,249. Of this amount, \$833,488 may be used to meet the government's ongoing obligations to citizens and creditors. This is an increase of \$356,803 from the prior year.
- The City's governmental activities net position increased by \$2,295,266 and the business-type activities decreased by \$1,884,985, for a total increase in net position of \$410,281.
- As of the close of the current fiscal year, the City's governmental fund reported ending fund balance of \$4,028,123, an increase of \$2,527,882 in comparison with the prior year.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$886,763, or 25% percent of total general fund expenditures. In the prior year, unassigned fund balance was 29% percent of total general fund expenditures.
- The City's total debt increased by \$1,490,425 during the current fiscal year.
- In the City's business-type activities, operating revenues increased by \$252,351 from the prior year while operating expenses increased by \$208,095, for a total operating income increase of \$44,256.
- In the general fund, revenues and other financing sources were \$168,702 less than budget, and the actual expenditures were \$45,499 less than budgeted.

### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City of Donalsonville's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** *The government-wide financial statements* are designed to provide readers with a broad overview of the City of Donalsonville's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City of Donalsonville's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Donalsonville that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include the general fund which includes the general government, public safety, highways and streets, sanitation, economic development, and culture and recreation, as well as Special Revenue Funds, which accounts for the Hotel/Motel Taxes and ARPA Funds, and five Capital Project Funds, which account for the SPLOST V, SPLOST VI, TSPLOST, Project Funds and Chip. The business-type activities of the City include the Water and Sewer Fund, the Gas Fund, the Solid Waste Fund, and the E-Donalsonville Fund.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also a legally separate Downtown Development Authority for which the City is financially accountable. Financial information for this *component unit* is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 14 and 15 of this report.

**Fund financial statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

**Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, government fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City has eight governmental funds. The general fund is a major fund, SPLOST V is a nonmajor Capital Project Fund, SPLOST VI is a nonmajor Capital Project Fund, the Hotel/Motel Tax Fund is a nonmajor Special Revenue Fund, the ARPA Fund is a nonmajor Special Revenue Fund, the Project Fund is a major Capital Project Fund, TSPLOST Fund is a nonmajor Capital Project Fund, and CHIP Grant Fund is a nonmajor Capital Project Fund.

The City adopts an annual appropriated budget for its general fund and special revenue fund. Budgetary comparison statements have been provided for the general fund and the special revenue fund to demonstrate compliance with this budget.

The basic governmental funds financial statements can be found on pages 16 through 19 of this report.

**Proprietary funds.** The City maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its Water and Sewer Fund, Gas Fund, Solid Waste Fund and E-Donalsonville Fund.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Water and Sewer Fund and the Gas Fund are major funds and the City has elected to treat the Solid Waste Fund and E-Donalsonville Fund as a major funds also.

The basic proprietary fund financial statements can be found on pages 20 through 23 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24 through 44 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on page 45-48 of this report.

## Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$15,007,249 at the close of the most recent fiscal year.

By far the largest portion of the City's net position (73%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

	City of Donalsonville's Net Position					
	Governmental activities		Business- type activities		Total	
	2021	2022	2021	2022	2021	2022
Current and other assets	\$ 1,766,712	\$ 4,337,673	\$ 933,145	\$ 1,030,368	\$ 2,699,857	\$ 5,368,041
Capital assets	4,692,592	4,533,395	13,332,373	13,106,904	18,024,965	17,640,299
Total assets	6,459,304	8,871,068	14,265,518	14,137,272	20,724,822	23,008,340
Total deferred outflows of resources	297,501	615,202	18,989	39,268	316,490	654,470
Long-term liabilities outstanding	403,044	131,186	4,328,270	6,114,712	4,731,314	6,245,898
Other liabilities	419,555	1,308,574	576,109	578,363	995,664	1,886,937
Total liabilities	822,599	1,439,760	4,904,379	6,693,075	5,726,978	8,132,835
Total deferred inflows of resources	674,324	491,362	43,042	31,364	717,366	522,726
Net position:						
Net investment in capital assets	4,080,329	4,130,308	8,854,828	6,882,093	12,935,157	11,012,401

\$3,163,360 of the City's net position is restricted. The *unrestricted net position* of \$833,488 may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City has positive balances in all three categories of net position, both for the governmental and business-type activities.

**Governmental activities.** Governmental activities increased the City’s net position by \$2,295,266. Key elements of this increase are as follows:

**City of Donalsonville’s Changes in Net Position**

**Business-type activities.** Business-type activities decreased the City’s net position by \$1,884,985, a decrease from the prior year in the amount of \$1,686,516.

**Financial Analysis of the City’s Funds**

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the City’s *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City’s financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

The general fund is one of the governmental funds of the City. As of the end of the current fiscal year, the City’s governmental funds reported combined ending fund balances of \$4,028,123, an increase of \$2,527,882 in comparison with the prior year. \$866,763 of this fund balance is available for spending at the City’s discretion.

**Proprietary funds.** The City’s proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Water and Sewer Fund at the end of the year amounted to \$605,537, the Gas Fund \$64,146, the Solid Waste Fund \$7,039, and the E-Donalsonville Fund (\$106,714), for a total unrestricted net position of \$570,008. Other factors covering the finances of these three funds have already been addressed in the discussion of the City’s business-type activities.

**General Fund Budgetary Highlights**

There were changes between the original budget and the final amended budget in revenues and appropriations totaling \$398,180.

**Capital Asset and Debt Administration**

**Capital assets.** The City’s net investment in capital assets for its governmental and business type activities as of May 31, 2021, amounts to \$11,012,401 (net of accumulated depreciation and related debt). This investment in capital assets includes land, buildings and systems, improvement, machinery and equipment, park facilities, roads, and highways. The total decrease in the City’s investment in capital assets, net of depreciation and debt, for the current fiscal year was \$1,922,756.

Additional information on the City’s capital assets can be found in Note III. C. on pages 31-32 of this report.

**Long-term debt.** At the end of the current fiscal year, the City had total capital leases outstanding in the amount of \$220,211 for its governmental funds and \$0 in the proprietary funds. Notes payable in the governmental funds were \$182,876 and proprietary funds were \$326,282. Bonds payable in the proprietary funds were \$6,070,000. Additional information on the City’s long-term debt can be found in Note III. E. & F. on pages 33 through 38 of this report. Post closure costs in the general fund total \$12,800 and in the proprietary funds total \$0.

### **Economic Factors and Next Year's Budgets and Rates**

Cost of living in this area has risen over the past few years and the future increases are projected to be significant. Adjustments will likely need to be made in future budgets to compensate for these increases.

### **Requests for Information**

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information should be addressed to the City Manager, P.O. Box 308, Donalsonville, GA 39845.

Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	4,533,395
Governmental funds recognized expenditures for insurance using this purchases method. However, the Statement of Activities uses the accrual method and, thus, only the amount of insurance benefits are recognized as expense when it is consumed. The unconsumed portion is recorded as an asset.	143,310
Deferred Inflows - Pensions	(491,362)
Deferred Outflows - Pensions	615,202
Net Pension Liability	(814,544)
Accrued interest	(2,775)
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.	(403,087)
Compensated absences and post closure cost	(72,966)
Other assets are not available to pay for current-period expenditures, and therefore are deferred in the funds.	19,852
<b>Net position of governmental activities</b>	<b>\$ 7,555,148</b>

The notes to the financial statements are an integral part of this statement.

**CITY OF DONALSONVILLE, GEORGIA  
RECONCILIATION OF THE STATEMENT OF REVENUES,  
EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED MAY 31, 2022**

Amounts reported for governmental activities in the statement of activities (page 10) are different because:

Net change in fund balances-total governmental funds (page 12) \$ 2,547,344

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets are allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.

Depreciation expense	\$	(452,091)	
Capital outlay		292,894	(159,197)

The issuance of long-term debt (e.g., leases, bonds) provides current financial resources to governmental funds, while the repayment of the principal of long term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Debt issued or incurred	\$	-	
Principal repayments		209,176	209,176

Expenses reported in the statement of activities that do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. (3,952)

Governmental funds defer all tax revenues not collected within 60 days of year-end. However, the Statement of Activities uses the accrual method and, thus, the entire amount is recognized as revenue, regardless of the collection date. (10,834)

Governmental funds recognize expenditures for insurance using the purchase method. However, the Statement of Activities uses the consumption method and, thus, only the amount of insurance benefits consumed are recognized. 6,626

Change in NPO and Deferred Inflows/Outflows (274,435)

Change in net position of governmental activities (page 10) \$ 2,314,728

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

**I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting entity**

The City of Donalsonville is a municipal corporation governed by an elected mayor and six-member council and provides the following services: public safety, highways and streets, culture and recreation, public improvements and general and administrative services. In addition, the City operates public utilities (water, sewer, natural gas and solid waste).

As required by generally accepted accounting principles, these financial statements present the City and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the City's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

**Discretely Presented Component Units.** The Downtown Development Authority of Donalsonville assists local merchants with low interest loans for renovations of downtown properties. The authority consists of a board of seven directors appointed by the City Council. The authority is dependent upon the City at this time for revenue, and the City contributes one-half of the motel and hotel tax collected. The authority is presented as a governmental fund type. Separate financial statements may be obtained by contacting: Downtown Development Authority, P.O. Box 308, Donalsonville, Georgia 39845.

**B. Government-wide and fund financial statements**

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

The City does not allocate indirect costs.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**C. Measurement focus, basis of accounting and financing statement presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied.

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Sales tax, property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Project fund* is the government's major capital project fund. This fund accounts for water/sewer capital outlay related to the revenue bond.

The government reports the following major proprietary funds:

The *water and sewer fund* operates the water distribution system, the sewer treatment plant, sewage pumping stations and collection systems, and the sanitation collection within the City.

The *gas fund* operates the distribution of natural gas to the City residents.

The *solid waste fund* does not meet the qualifications for a major fund, but management elected to treat it as a major fund. This Fund accounts for the expenses associated with the closure of a landfill and the revenues received from the city and county for these expenses per their agreement.

The *E-Donalsonville* fund does not meet the qualifications for a major fund, but management elected to treat it as a major fund. This Fund accounts for the expenses associated with the city's wireless internet service.

The government reports the following nonmajor governmental funds:

The *hotel/motel tax fund* is the government's special revenue fund. This fund accounts for all hotel/motel tax revenue received and the accompanying expenditures.

The *ARPA fund* is the government's special revenue fund. This fund accounts for all American Rescue Plan Act (ARPA) Local Fiscal Recovery Funds revenue received and the accompanying expenditures.

The *CHIP fund* is a nonmajor capital project fund. This fund accounts for all CHIP revenue and the accompanying expenditures.

The *SPLOST V fund* is the government's major capital project fund. This fund accounts for all SPLOST revenue and the accompanying capital outlay.

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

The *SPLOST VI fund* is a nonmajor capital project fund. This fund accounts for all SPLOST revenue and the accompanying capital outlay.

The *TSPLOST* fund is a nonmajor capital project fund. This fund accounts for all TSPLOST revenue and the accompanying capital outlay.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function, gas function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Taxes and other items not properly included as program revenues are reported as general revenues.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. The fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

**D. Assets, liabilities and net position or equity**

**1. Deposits and investments**

The City of Donalsonville's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned to it. All the City's deposits are covered by a combination of federal depository insurance and securities pledged by the financial institution as collateral to protect the deposits of the City as required under state law. Therefore, the City has no custodial credit risk for its deposits.

**2. Receivables and payables**

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown net of allowance for uncollectibles. Receivables in excess of 120 days comprise the trade accounts receivable allowance for uncollectibles.

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

Property taxes attach as an enforceable lien on property as of January 1. Property taxes are levied as of the first day of October each year and are payable by December 20. Property taxes are recognized in income in October upon completion of the tax digest. At May 31, 2022, uncollected property taxes amounted to \$34,374. The City estimates that substantially all of the remaining balances will be received in the subsequent period. After December 20, applicable property will be subject to liens, penalty and interest.

**3. Inventories and prepaid items**

Expendable supplies are recorded as expenditures at the time items are purchased. The City does not record inventories of supplies on the books.

Certain payments to vendors reflect costs applicable to future accounting periods and are reported as prepaid items in both the government-wide and proprietary fund financial statements. In the governmental fund statements those prepaid are recognized when purchased.

Prepaid expenses of the City consist of insurance expenses. The City had prepaid insurance expenses totaling \$185,938.

**4. Restricted assets**

The City of Donalsonville’s general fund restricted assets are cash. They consist of customer deposits and confiscated funds held for the use of the Police Department.

**5. Capital assets**

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City had historical cost records of its infrastructure, thereby allowing us to record infrastructure acquired prior to implementing Statement 34. Capital assets are defined by the government as assets with an individual cost of \$1,000 and an estimated useful life of more than one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lines:

<u>Assets</u>	<u>Years</u>
Buildings	40 years
Building improvements	20 years
Improvements other than buildings	20-50 years
Public domain infrastructure	50 years
System infrastructure	30 years
Machinery and equipment	3 to 20 years
Trucks and tractors	4 to 10 years
Office equipment	5 to 15 years

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

**6. *Compensated absences***

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide and proprietary funds financial statements.

**7. *Long-term obligations***

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**8. *Categories and classifications of Fund Balance***

The City follows GASB 54 which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor resource constraints. Fund balance classifications, under GASB 54, are Nonspendable, Restricted, Committed, Assigned and Unassigned.

The City uses restricted amounts to be spent first when both restricted and unrestricted fund balances are available, unless there are legal documents/contracts that prohibit the use of restricted fund balance, such as grant agreements that require a dollar match. Additionally, the City would then use committed, assigned and lastly unassigned amounts from the unrestricted fund balance when expending funds. The City does not have a formal minimum fund balance policy.

**9. *Net Position***

Net investment in capital assets – This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that attributed to the acquisition, construction or improvement of assets.

Restricted – This amount is restricted by external creditors, grantors, contributors or laws or regulations of other governments.

Unrestricted – This amount is all net position that do not meet the definition of “invested in capital assets, net of related debt” or “restricted net position”.

**10. *Deferred Outflows/Inflows of Resources***

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City reports one of these items. One item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. The amounts are deferred and recognized as inflow of resources in the period that the amounts become available.

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

The City also has deferred inflows of resources and deferred outflows of resources related to the recording of changes in its net pension liability. Certain changes in the net pension liability are recognized as pension expense over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic studies by the City's actuary which adjust the net pension liability for actual experience for certain trend information that was previously assumed, for example the assumed dates of retirement of plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of Plan members. Changes in actuarial assumptions which adjust the net pension liability are also recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of Plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five-year period. Additionally, any contributions made by the City to the pension plan before year end but subsequent to the measurement date of the City's net pension liability are reported as deferred outflows of resources.

**10. Comparative data/reclassifications**

Comparative total data for the prior year have not been presented.

**II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**A. Budgetary information**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds and proprietary funds. The City's annual budget is prepared based on anticipated revenues and appropriated expenditures. Revenue anticipations, generally conservative, are designed to help insure fiscal responsibility and maintain a balanced budget. Sums sufficient to provide for debt service may not be diverted to any other purpose by the Mayor and the Council. The budget is prepared by fund and department. The legal level of budgetary control is the department level. Transfers between departments require approval of governing council.

According to the Charter and Code of the City, the City Manager has the responsibility for developing both the annual budget and capital budget for the city, which is done in conjunction with input and assistance from the City Clerk. These two budgets are developed separately, and then combined into one budget document, with the budgets for capital expenditures being incorporated as line items in the budget for each general government department.

The budget process begins shortly after the results for the third quarter of the fiscal year are determined, usually in early March. Budget proposals or development forms are issued to department heads for those departments where the budget is developed outside City Hall, along with budget results for the department for the first three quarters of the year. The department heads then compare the performance numbers for their respective departments for the current fiscal year, along with the results of the last quarter of the previous fiscal year to their annual budget expenditures, and from that comparison they structure their budgets and make projections of budget and capital needs for the next fiscal year. When they have completed their projections, they return the budget development forms to the City Manager's office at City Hall.

The City Manager is, during this same period of time, completing the budget development forms for those sections of the budget that are developed within City Hall, such as revenues and general government expenditures, using comparative numbers and information from a budget development file maintained in City Hall where pertinent data is filed as it is gathered throughout the year. The City Manager must also compute the requirements for all sections of the budget dealing with lease/purchase and capital outlays or expenditures.

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

When the budget development forms for all departments have been turned in to, or completed by City Hall, they are combined into a draft budget document. At this point in the process, usually in early April, budget meetings are held with each department head to discuss their projected budget needs. This step is often completed when the budget development forms are returned. If it is determined during these meetings that adjustments need to be made to any line item in the budget, those adjustments are made and total projected budget expenditures are recalculated and compared with projected revenues to determine the projected ad valorem tax requirements. The projected ad valorem tax requirement is entered as a line item in the revenue section of the general fund budget. The completed document becomes the first draft of a proposed City budget for the next fiscal year.

When the proposed budget for the next fiscal year is completed, it is reproduced in quantity and distributed to the Mayor and Council for their review and study. Next, the first public hearing for the proposed budget is scheduled to review the budget and receive public input into the budgeting process. This is usually done in mid-to-late April. After this hearing is held, and input is received from both the public and the Mayor and Council, further refinements and helpful suggestions are incorporated and the second draft budget document is produced and distributed to the Mayor and Council. Of course, copies of the budget at each stage of the budget process are available for public review at City Hall at all times. Next, a final budget hearing is scheduled and advertised. When possible, this hearing is held in conjunction with the regularly scheduled meeting of the Mayor and Council in May. At this hearing, any final public input is received, and final refinements or changes to the budget are made by the Mayor and Council, after which the budget is adopted as the official budget for the City for the upcoming fiscal year which begins on June 1<sup>st</sup> of each year. Any changes to the budget thereafter must be adopted as amendments to the official city budget.

**B. Excess of expenditures over appropriations**

For the year ended May 31, 2022, expenditures exceeded appropriations in the following areas: The over-expenditures were funded by available fund balances.

Debt service	\$ 46,144
Council	430
Fire department	66,239
Hotel/Motel	4,350

**III. DETAILED NOTES ON ALL FUNDS**

**A. Deposits**

At year end, the City of Donalsonville's carrying amount of deposits was \$4,797,936 and the bank balance was \$4,495,921. All deposits are entirely insured or collateralized. Of the bank balance, \$500,000 was covered by federal depository insurance or by collateral held by the City's agent in the City's name. The remaining balance of \$3,995,921 was collateralized with securities held by the pledging financial institution's trust department or agent in the City's name. The City does not have a formal policy addressing credit risk.

The following ties the carrying amounts to the Statement of Net Position:

Cash & cash equivalents	\$ 4,651,719
Restricted cash	151,807
Bank overdraft	<u>(5,140)</u>
Total Statement of Net Position	\$ 4,798,386
Less:	
Cash on hand	<u>(450)</u>
Total carrying amount	<u>\$ 4,797,936</u>

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

**B. Receivables**

Receivables as of year-end for the government's individual major and nonmajor funds and major business-type funds, including the applicable allowances for uncollectible accounts, are as follows:

	Governmental				Business-type				Total
	General Fund	SPLOST VI Fund	TSPLOST Fund	Hotel/Motel Tax Fund	Water/Sewer Fund	Gas Fund	Solid Waste Fund	E-Donalsonville Fund	
Receivables:

Bonds payable	4,300,926	6,070,000	(4,300,926)	6,070,000	210,000
Notes payable	395,755	-	(69,473)	326,282	71,570
Business-type activities Long-term liabilities	<u>\$ 4,698,635</u>	<u>\$ 6,077,532</u>	<u>\$ (4,370,399)</u>	<u>\$ 6,405,768</u>	<u>\$ 281,570</u>

Compensated absences and post closure costs of the City's governmental funds will generally be liquidated by the general fund. Long-term liabilities of the business-type activities will generally be paid from the fund that incurred the liability.

**G. Restricted asset**

The balances of the City's restricted asset accounts are as follows:

Customer deposit	\$150,077
Police department	<u>1,730</u>
Total restricted assets	<u>\$151,807</u>

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

**IV. OTHER INFORMATION**

**A. Risk Management**

The City of Donalsonville is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has joined together with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund.

As part of this risk pool, the City is obligated to pay all contributions and assessments as prescribed by the pool, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the fund being required to pay any claim of loss. The City is also to allow the pool's agents and attorneys to represent the City in investigation, settlement discussions and all events of litigation arising out of any claim made against the City within the scope of loss protection furnished by the fund.

The fund is to defend and protect the members of the fund against liability or loss as prescribed in the member government contract. The fund is to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

**B. Related Party Transaction**

The City has no outstanding contracts with any related parties.

**C. Subsequent Events**

There are no significant subsequent events that the City is aware of as of the date of the audit report.

**D. Joint Ventures**

The City is currently involved in a joint venture with Seminole County, Georgia for the operation of the Donalsonville-Seminole County Airport. The airport is financially independent of the City and County, and the governments do not retain an equity interest in the airport. All real estate is owned equally by the City and County governments, with the City's respective portion included in its capital assets. A copy of the joint venture's separate financial statements can be obtained from:

Jerry Isler  
P.O. Box 671  
Donalsonville, Georgia

Under Georgia law, the County, in conjunction with other cities and counties in the eight-county west central Georgia area, is a member of the Southwest Georgia Regional Commission (SWGARC) and is required to pay annual dues thereto. During its year ended May 31, 2022, the city paid \$2,806 in such dues. Membership in SWGARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the SWGARC in Georgia. The SWGARC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of SWGARC. Separate financial statements may be obtained from:

Southwest Georgia Regional Commission  
P.O. Box 346  
Camilla, Georgia 31730-0346

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

**E. Employee retirement systems and pension plans**

*Plan description.* The City maintains an agent multiple employee defined benefit pension plan with the Georgia Municipal Employees Benefit System (GMEBS). The Plan provides retirement, disability, and death benefits to plan members and beneficiaries. Participation in the plan was approved by resolution of the City Council. The benefits provided by the plan, as well as the obligation to contribute to the plan, can only be amended by the approval of the City Council. Employees are not required to contribute to the plan. The Plan is not included in the City's financial statement. A financial report is available by contacting the Burgess Building, Atlanta, Georgia.

The City also participates in the State of Georgia Police Officer's Annuity Program. The City makes no contribution to this plan. Contributions are collected by the City as an agent for this fund through its municipal court system. This plan is administered through the State and is not included in the City's financial statements.

*Employees covered by benefit terms.* At May 31, 2022, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	30
Inactive employees entitled to but not yet receiving benefits	40
Active employees and elected officials	44
	114

*Funding Policy.* The Plan is subject to minimum funding standards of the Georgia Public Retirement Systems Standards law. The Board of Trustees of GMEBS has adopted a recommended actuarial funding policy for the plan which meets state minimum requirements and will accumulate sufficient funds to provide the benefits under the plan. The funding policy for the Plan, as adopted by the City Council, is to contribute an amount equal to or greater than the actuarially recommended contribution rate. This rate is based on the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of plan members, as determined by the City Council. The current rate of contribution for the City is 9.96% of annual covered payroll. Annual covered payroll for May 31, 2022 was \$1,661,450.

**Net Investment Return**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The difference between the resulting rate and the rate on the ongoing basis is a margin for adverse deviation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of March 31, 2020 (see the discussion of the pension plan's investment policy) are summarized in the following table:

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Domestic equity	45.00%	6.55%
International equity	20.00%	7.30%
Real estate	10.00%	3.65%
Global Fixed income	5.00%	0.50%
Domestic Fixed income	20.00%	0.40%
Cash	0.00%	
Total	100.00%	

Rate of Return: 7.375% On-going basis, based on long-term expected rate of return on pension plan investments.

**Significant actuarial assumptions.** The total pension liability was determined by an actuarial valuation as of July 1, 2022, using the following actuarial assumptions, applied to all prior periods included in the measurement:

The significant actuarial assumptions used in the current valuation, as of July 1, 2022 are:

Net Investment Rate of Return	7.375 % per year
Projected Salary Increases	2.25 % plus service based merit
Cost of Living Adjustments	0.00%

Mortality rates were based on the RP-2000 Combined Healthy Mortality Table with sex-distinct rates, set forward two years for males and one year for females. The RP-2000 mortality tables were determined to contain sufficient provision appropriate to reasonable reflect future mortality improvement, based on a four-year review of mortality experience for the period January 1, 2015 to June 30, 2019. Mortality experience will be reviewed periodically and updated if necessary.

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

Net Pension Liability. The components of the net pension liability of participating entities were as follows:

	Total Pension Liability (TPL) (a)	Fiduciary Net Position (FNP) (b)	Net Pension Liability (NPL) (a)-(b)
Balance at May 31, 2021 *	\$ 4,404,636	\$ 4,362,672	\$ 41,964
Changes for the year:			
Service Cost	65,411	-	65,411
Interest	319,298	-	319,298
Difference between expected and actual experience	124,293	-	124,293
Contributions - employer	-	165,548	(165,548)
Contributions - employee	-	18,345	(18,345)
Net Investment Income	-	(199,075)	199,075
Benefit Payments, including refunds of employee contributions	(281,153)	(281,153)	-
Administrative Expense	-	(15,012)	15,012
Other	285,376	-	285,376
Net Changes	<u>513,225</u>	<u>(311,347)</u>	<u>824,572</u>
Balance at May 31, 2022 **	<u>\$ 4,917,861</u>	<u>\$ 4,051,325</u>	<u>\$ 866,536</u>

*\*Entry Age Normal liabilities calculated using ages and service months as of July 1, 2021 are used to measure TPL as of May 31, 2021. The balances as of May 31, 2021 constitute measurements of the NPL for the fiscal year ending May 31, 2022.*

*\*\*Entry Age Normal liabilities calculated using ages and service months as of July 1, 2022 are used to measure TPL as of May 31, 2022. The balances as of May 31, 2022 constitute measurements of the NPL for the fiscal year ending May 31, 2023.*

Discount Rate. The discount rate used to measure the total pension liability was 7.3750%. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the net pension liability to changes in the discount rate.* The following presents the net pension liability of the City, calculated using the discount rate of 7.3750%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.3750%) or 1-percentage-point higher (8.3750%) than the current rate:

	1% Decreases 6.375%	Current Discount Rate 7.375%	1% Increase 8.375%
Sensitivity of the Net Pension Liability to Changes in the Discount Rate	<u>\$ 1,394,809</u>	<u>\$ 866,536</u>	<u>\$ 420,029</u>

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

**Pension Expense and Deferred Outflows of Resources and Deferred Inflow of Resources Related to Pensions**

For the fiscal year ended May 31, 2022, the City recognized pension expense of \$457,500. At May 31, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 186,180	\$ -
Changes in assumptions	9,564	-
Net differences between projected and actual earnings on pension plan investments.	458,726	(522,726)
Total	<u>\$ 654,470</u>	<u>\$ (522,726)</u>

**F. Defined Contribution Plan**

The City has elected to participate in a retirement plan administered by Georgia Municipal Association, Inc. The plan is a governmental qualified defined contribution money purchase plan.

Under the plan, the City allows employees the option of contributing up to 100% of their earnings to the plan. The City does not make any contributions to the plan.

Benefits depend upon the sum of the employee's contributions to the plan with investment earnings. Upon retirement or employment termination, employees are entitled to either a lump sum distribution of the employee and employer contributions with investment earnings or the option of receiving monthly, semi-annual or annual payments based on an amount equal to the amount of the employee contributions with investment earnings.

There was one employee who contributed \$12,114 to the plan for the fiscal year ending May 31, 2022.

**G. Closure and Postclosure Care Cost**

State and federal laws and regulations require the City to place a final cover on its solid waste landfill and to perform certain maintenance and monitoring functions at the site for a period of five years. This 5-year period is an exception to the 30-year period for monitoring landfills granted to those sites which are not contaminating groundwater and which cease to accept solid waste as of April 8, 1994. The City qualified for this exception. Although closure and postclosure care costs will be paid after the date that the landfill stopped accepting waste, the City reports a portion of these costs as an operating expense in this fiscal year, and the balance of the current estimated closure and postclosure costs are recorded as a liability in the Solid Waste Fund, an Enterprise Fund of the City. Estimates must be used and these estimates may change on account of a variety of factors including inflation or deflation, technology, or applicable laws or regulations.

The City and Seminole County, Georgia have an agreement in which the County contributes 60% of the closure and post-closure cost. An intergovernmental receivable is recorded for 60% of the current estimated cost.

The current estimated closure and post-closure cost at May 31, 2022 for the governmental fund is \$12,800. The City does not have the ability to calculate the annual accrual due to the closure of the landfill.

**CITY OF DONALSONVILLE, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**May 31, 2022**

**H. Motel/Hotel Tax**

The City of Donalsonville collected 5% motel taxes and is in compliance with OCGA 48-13-51. The City collected \$52,061 in taxes and expended \$40,696 for economic development, which is 78% of taxes collected. The balance is restricted for economic development.

**FOR THE FISCAL YEAR ENDED MAY 31, 2022**

**NOTES TO SCHEDULE OF CONTRIBUTIONS**

Valuation Date	The actuarially determined contribution was determined as of July 1, 2022, with an interest adjustment to the fiscal year. Contributions in relation to this actuarially determined contribution will be reported for the fiscal year ending May 31, 2024.
Methods and assumptions used to determine contribution rates:	
Actuarial Cost Method	Projected Unit Credit
Amortization Method	Closed level dollar for remaining unfunded liability
Remaining Amortization Period	Remaining amortization period varies for the bases, with a net effective amortization period of 14 years.
Asset Valuation Method	Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amount that the value exceeds or is less than the market value at end of year. The actuarial value is adjusted, if necessary, to be within 20% of market value.
Actuarial Assumptions:	
Net Investment Rate of Return	7.375%
Projected Salary Increases	2.25% plus service based merit increases
Cost of Living Adjustments	N/A
Retirement Age	
age 65-69	60%
70 and over	100%
Mortality	RP-2000-Combined

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Mayor and City Council  
City of Donalsonville, Georgia

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Donalsonville, Georgia, as of and for the year ended May 31, 2022, and the related notes to the financial statements, which collectively comprise the City of Donalsonville, Georgia's basic financial statements and have issued our report thereon dated November 25, 2022.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City of Donalsonville, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Donalsonville, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Donalsonville, Georgia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described below to be material weaknesses. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore, material weaknesses and significant deficiencies may exist that were not identified. However, as described below we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

**Item 2022-1**

**Finding:** Inadequate separation of duties in the Governmental Funds and the Proprietary Funds.

**Cause:** The City does not have enough staff to segregate the various functions.

**Effect:** This could result in misappropriation of assets.

**Planned Corrective Action:** The mayor and council take an active role in reviewing the monthly financials and other monthly checks and balances.

**Response by Responsible Officials:** The mayor and council are aware of this issue, but it is not economically feasible to correct.

### Item 2022-2

**Finding:** Expenditures exceeded the budget in four departments of the General Fund and Hotel/Motel Fund.

**Cause:** The City amended the 2022 budget, but did not accrue all payables at year-end.

**Effect:** Expenditures for the year exceeded the appropriations in one department of the General Fund and the Hotel/Motel Fund.

**Planned Corrective Action:** The Mayor and Council will review and amend the budget closer to year-end and will consider each department's appropriation needs.

**Response by Responsible Officials:** The Mayor and Council are aware of this finding and will strive to maintain sufficient budgetary appropriations for all departments.

### Item 2022-3

**Finding:** The City did not adopt an annual budget for the ARPA fund as required by OCGA 36-81-3(b).

**Cause:** The City did not adopt an annual budget for the ARPA fund.

**Effect:** The City is in violation of Georgia law that requires a budget for the ARPA Fund.

**Planned Corrective Action:** The Mayor and Council will create and amend as needed the budget for the ARPA Fund.

**Response by Responsible Officials:** The Mayor and Council are aware of this finding and will prepare the budget for ARPA in future years.

**Response by Auditor:** We did not audit the entity's response and, accordingly, do not express an opinion on it.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Donalsonville, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are below.

### **City of Donalsonville, Georgia's Response to Findings**

Government Auditing Standards requires the auditor to perform limited procedures on the City of Donalsonville, Georgia's response to the findings identified in our audit is described above with each finding. The City of Donalsonville, Georgia's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

This purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
